Consumer Outreach

Describe consumer outreach efforts in the past 12 months: TelAlaska Cellular provides detailed HAC handset information to its customers on its website. Further, TelAlaska during each calendar year fly to the remote rural villages in which we serve and will schedule community meetings to hand out service brochures and to discuss in detail the services we offer.

Methodology for Functionality Levels

TelAlaska Cellular offers HAC-compatible handsets and devices in all major price categories, including low-cost (Low Tier1) (<\$100), moderate-cost (Mid Tier) (\$100-\$250), and high-end/feature-rich (Upper Tier) (>\$250). Costs generally correlate with the number of features, but, if though experience, TelAlaska Cellular finds that a certain handset contains features that work well with hearing aids, such as volume control, it will be labeled accordingly with an "A" level for functionality. TelAlaska Cellular's sales staff is trained to assist all existing and prospective customers looking for a HAC-compliant device/handset. HAC-compatible handsets and devices vary in their inherent "levels of functionality," but typically at least one HAC-compliant handset/device with features and services typical of its price category can be found that meets each customer's price range.

Report Remarks

This filing demonstrates TelAlaska Cellular's full compliance with the FCC HAC requirements. Further is shall serve to substantiate comments filed in File No. EB-10-SE-124
